

Nationwide® Intelligent Underwriting

Nationwide® Intelligent Underwriting is a streamlined approach to getting the life insurance coverage you need to protect your family. In this process, you'll complete a brief online application; a phone interview to provide information about your personal and medical history; and an abbreviated paramedical exam (Quick Check exam). This process streamlines the life insurance application process by:

-  Cutting down the amount of paperwork needed
-  Reducing the awkwardness of talking to your insurance professional about your medical history, instead turning this task over to trained medical professionals
-  Quickening the time to receive an underwriting decision

How does it work?

Getting started: Your insurance professional will work with you to complete a brief online application.

Scheduling the phone interview: Your insurance professional will help you select the best option for scheduling the phone interview:

Option 1: Once your application has been processed, you'll be contacted directly to complete the interview

Option 2: If that time doesn't work for you, you can schedule a call back for your preferred day and time

What to expect during your phone interview: During the call, you'll answer questions to provide personal and medical history, including details such as:

- Verification of your Social Security number
- Medical and prescription history
- Driving history
- Citizenship/immigration information
- Alcohol and tobacco usage

The information you provide will be recorded. At the end of the interview, you'll sign your application using electronic voice signature.

Completing the Quick Check exam: After the phone interview, you will be contacted to schedule a brief Quick Check exam, which provides the additional information needed to complete your life insurance application. During the Quick Check exam visit, the examiner will collect:

- Height, weight, blood pressure and pulse information
- Urine and blood sample

What you should know to be prepared

Preparing for your phone interview:

The interviewer may already have background information on your prescription and driving history to assist with the interview. To help minimize the time needed to gather the required information during the call, please have the following information on hand:

- Physicians' names, addresses and telephone numbers
- Medical conditions with dates of treatment
- Prescribed medications and dosages
- Family history of father, mother, brothers and sisters — including current age and health concerns or age at death and cause of death

Preparing for your Quick Check exam:

Please follow these tips for getting the best results from your Quick Check exam:

- Get a good night's sleep
- Abstain from food and alcoholic beverages for at least eight hours before the exam
- Do not smoke or chew tobacco for at least one hour before the exam
- Limit salt intake and high-cholesterol foods in the 24 hours before the exam
- Do not engage in strenuous physical activities in the 24 hours before the exam
- Drink a glass of water an hour or so before your exam for a urine specimen
- You'll be informed of any fasting requirements needed for the blood specimen
