Life insurance considerations

Be sure to choose a product that meets long-term life insurance needs, especially if personal situations change — for example, marriage, birth of a child or job promotion. Weigh the costs of the policy, and understand that life insurance has fees and charges associated with it that vary based on your decisions and characteristics including sex, health, age and tobacco use. Riders that customize a policy to fit individual needs usually carry an additional charge.

**Acceleration of Life Insurance Death Benefit for Qualified Long-Term Care Services Rider**

There’s a good chance that you will need some long-term care services in your lifetime, and the Acceleration of Life Insurance Death Benefit for Qualified Long-Term Care Services Rider can help you plan to reduce the potential impact of related expenses on your family and finances.

This rider allows you to access the death benefit of your policy to cover long-term care expenses if you become chronically ill or cognitively impaired. Because this rider is an indemnity benefit, it gives you the flexibility to use the money as you see fit. That means you may use your benefit to pay for licensed professionals or pay less expensive informal caregivers, such as family members or friends, to provide your care. Whatever your unique needs, you can choose a type of care that is familiar and comfortable for you.

Once your claim is approved, our rider gives you the opportunity to:

- Receive care at home in a familiar setting with those you know, including care from your immediate family members
- Choose a licensed facility or customized care choices, such as adult day care for the elderly
- Use your monthly cash benefit without policy restrictions and without the need to submit monthly bills or receipts once the claim is established
- Have 100% of your monthly cash benefit available
- Help protect assets and income sources from depletion
- Receive care outside of the United States
- Pass a legacy on to your beneficiaries if you don’t need the funds for long-term care

In addition to benefits for qualified long-term care services, the rider will provide a one-time, lump-sum benefit as an acceleration of a portion of the base policy death benefit if you are ever diagnosed with a qualified terminal illness.

---

4 The insured is not required to return to the United States for certification if they are receiving qualified long-term care services outside of the United States, its territories or possessions. However, the licensed health care practitioner providing the certification must be licensed to practice in the United States, its territories or possessions, and operating within the scope of his or her license.

5 Terminal illness is defined as an illness or physical condition, including a physical injury, that can reasonably be expected to result in death within 12 months. After the insured is certified as being terminally ill, the available lump-sum benefit will be the lesser of 25% of the base policy specified amount, the base policy specified amount minus indebtedness, or $50,000. The maximum lump-sum benefit is $50,000. We will not lapse the policy within 12 months of paying a lump-sum benefit.
