

**INCOME FROM U.S. GOVERNMENT SECURITIES
CALENDAR YEAR 2018**

During calendar year 2018, certain Nationwide Funds invested in securities issued by the United States government or other federal agencies (U.S. Government Securities). Under Federal law, the interest on these securities is exempt from state taxation. Certain states also allow exemptions from state income tax for the dividend income that is derived from a Fund's investment in U.S. Government Securities.

California, Connecticut and New York require that a mutual fund maintain certain minimum investments in U.S. Government Securities in order for the dividend income derived from these obligations to be exempt from state income tax. None of the Funds listed below met these requirements for calendar year 2018.

The table below provides the percentages of ordinary income dividends derived from investments in U.S. Government Securities for calendar year 2018. To determine the amount which may be exempt from state income tax, multiply the amount reported in **Box 1a** of **Form 1099-DIV** by the percentage listed.
