Average Annual Total Returns (%)

Share class	QTD	YTD	1-year	3-year	5-year	Since inception
Class R6	-12.70	-2.88	-2.88	—	—	6.37
Eagle Shares	-12.74	-2.93	-2.93	—	—	-6.88
Institutional Service Class	-12.71	-2.95	-2.95	—	—	6.21
Russell 3000 Growth Index	-16.33	-2.12	-2.12	10.85	9.99	—
Category	-15.43	-2.09	-2.09	8.98	8.16	—

Performance returns assume the reinvestment of all distributions. Returns for periods less than one year are not annualized. Total returns reflect a contractual expense limitation for direct annual Fund expenses for all classes for certain periods since inception, without which returns would have been lower. Pre-inception historical performance for newer share classes is based on the corresponding share class performance of a Fund's predecessor fund. If no predecessor Fund applies, historical performance is based on that of the longest existing share class, adjusted for sales charges if applicable. Past index and category performance returns are not intended to serve as a proxy for future fund performance.

Share class	Expense ratios		Inception date
	Gross (%)	Net (%)	
Class R6	0.99	0.85	05/31/2017
Eagle Shares	1.09	0.95	06/19/2018
Institutional Service Class	1.24	1.10	05/31/2017

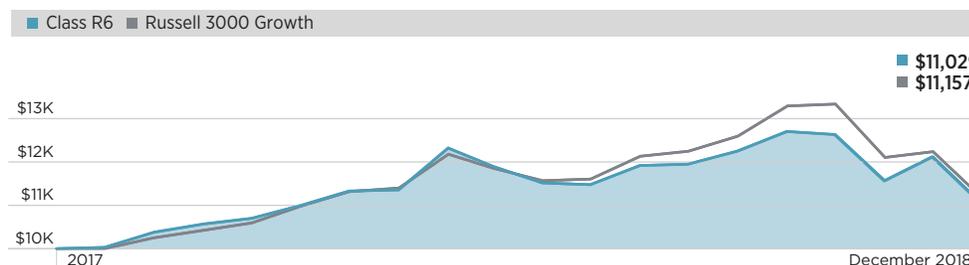

The expense ratios are as shown in the most recent prospectus. Expenses include underlying fund expenses. The difference between gross and net operating expenses reflects contractual fee waivers in place through 06/30/2019. Please see the Fund's prospectus for more details.

Top Holdings

Company	% of portfolio
Amazon.com Inc	6.7
Alibaba Group Holding Ltd ADR	5.2
Oracle Corporation	5.2

DEFINITIONS: **Average annual total returns** are the annual compounded returns that would have produced the cumulative total return if fund performance had been constant during the given period. **P/E ratio** is the price of a stock divided by trailing 12-month earnings per share. **Sharpe ratio** measures excess return per unit of risk (standard deviation). A higher Sharpe ratio suggests better risk-adjusted performance. **Standard deviation** measures performance fluctuation, may not be indicative of future risk and is not a predictor of returns. **Alpha** represents the excess returns of a fund relative to its benchmark. A positive alpha is the added value an active manager has contributed over the benchmark returns. **Beta** measures volatility in relation to the fund's benchmark. A beta of less than 1.0 indicates lower volatility, while a beta of more than 1.0 indicates higher volatility relative to the benchmark. **R-Squared** measures the percentage of a fund's movements that can be explained by movements in a benchmark. **Turnover** measures how frequently investments are bought and sold within a fund during a 12 month period. The portfolio turnover rate is as of the fund's fiscal year end and is usually expressed as a percentage of the total value of a fund.

For more information about the available underlying investment options, please consult a fund prospectus. Carefully consider the investment objectives, risks, charges and expenses. Prospectuses contain this and other important information and should be read carefully before investing. To request a copy, call 1-888-867-5175 or visit your plan's website.

KEY RISKS: The Fund is subject to the risks of investing in equity securities (including small and mid-size companies). Smaller companies are usually less stable in price and less liquid than larger, more established companies. Smaller companies are more vulnerable than larger companies to adverse business and economic developments and may have more limited resources. Therefore, they generally involve greater risk. The Fund also is subject to the risks of investing in foreign securities (which may be more volatile, harder to price and less liquid than U.S. securities). Growth funds may underperform other funds that use different investing styles. Funds that invest in a relatively small number of securities may be subject to greater volatility than a more diversified investment. Please refer to the most recent prospectus for more detailed information.

Russell 3000 Growth Index: A market capitalization weighted index based on the Russell 3000 index. The Russell 3000 Growth Index includes companies that display signs of above average growth. The index is used to provide a gauge of the performance of growth stocks in the U.S. Russell Investment Group is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. The Fund is not sponsored, endorsed, or promoted by Russell, and Russell bears no liability with respect to any such funds or securities or any index on which such funds or securities are based. Russell® is a trademark of Russell Investment Group. Market index performance is provided by a third-party source Nationwide Funds Group deems to be reliable (Morningstar). Indexes are unmanaged and have been provided for comparison purposes only. No fees or expenses have been reflected. Individuals cannot invest directly in an index.
