Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. A Fund's return may not match or achieve a high degree of correlation with the return of the underlying index.

Call 800-617-0004 to request a summary prospectus and/or a prospectus, or download prospectuses at etf.nationwide.com. These prospectuses outline investment objectives, risks, fees, charges and expenses, and other information that you should read and consider carefully before investing.
