The fourth annual Health Care/Long-term Care Consumer Survey was conducted online within the United States by The Harris Poll on behalf of Nationwide from February 5-22, 2018 among 1,007 adults ages 50 and older who have a household income of \$150k or more ("affluent adults"), and 522 U.S. adults ages 50 and older who are or have been caregivers. Caregivers are defined as those providing paid or unpaid long-term care to a friend or family member, not through an agency, business, or non-governmental organization. Data are weighted where necessary by age by gender, race/ethnicity, region, education, income, marital status, and propensity to be online to bring them in line with their actual proportions in the population.

This material is not a recommendation to buy, sell, hold, or rollover any asset, adopt an investment strategy, retain a specific investment manager or use a particular account type. It does not take into account the specific investment objectives, tax and financial condition or particular needs of any specific person. Investors should work with their financial professional to discuss their specific situation.
