Risk & Resilience: Small Business Owners in the Wake of the Pandemic

September 2022

NFM-22374AO
Small businesses and their workers must rebound from the COVID-19 crisis so that communities thrive and the benefits ripple throughout the economy. We are a multi-stakeholder, cross-sector initiative focused on advancing and uplifting innovative solutions via dialogue and data to ensure that MLK Boulevards, Cesar Chavez Ways, Chinatowns and Main Streets are at the center of our recovery.

Reimagine Main Street is a project of the Public Private Strategies Institute.

Nationwide

UNITED STATES HISPANIC CHAMBER OF COMMERCE

PUBLIC PRIVATE STRATEGIES INSTITUTE
The last two years have taken a tremendous toll on small businesses and challenges persist for many entrepreneurs. The impact of COVID-19 pandemic highlighted the need for small businesses to be resilient in the face of future shocks.

Against this backdrop, we sought to better understand the outlook of small employers how they are responding to current challenges, and planning for future risks.

In collaboration with the United States Hispanic Chamber of Commerce (USHCC) and Nationwide, Reimagine Main Street fielded a national survey of small employers from June 9 - July 6, 2022.
Executive Summary

• Small employers are optimistic about the future of their businesses in spite of negative effects of COVID-19 on their performance. Most report that business is stable or improving and almost half expect revenue growth in the next six months.

• In spite of this optimism, small employers were hard hit by the pandemic and are still experiencing headwinds including soft demand, increased input costs, the effects of higher interest rates, supply chain disruptions, and a tight labor market.

• To date, most small employers have focused on strengthening their finances to prepare for future shocks. Opportunities exist for additional actions to focus on risk management.
