A refreshed account summary experience

Providing participants with a clear view of what matters most

The participant web experience just got better.
We've enhanced the account summary page to be more intuitive and easier to navigate, so participants can find account information with less friction and make confident retirement decisions.

The updates:

- **Cleaner, account-focused page** shows the full contribution picture in one updated view.
- **More clear, organized tiles** make it easy for participants to see their balances, transactions, statements and beneficiary information.
- **Enhanced navigation menu** offers quick access to My Income & Retirement Planner[1] (MIRP), appointment scheduling, contact information and a link to the My Retirement app.

Check out the refreshed account summary experience by logging in as a participant and selecting your account.
