

Good News! Asset fee holiday.

Effective April 1, 2020, in recognition of participants' increased contributions to the Plan, the City's Deferred Compensation Board approved a **fee holiday**. During this fee holiday, all annual administration fees on investments will be suspended. The Board takes its fiduciary responsibilities very seriously and, as a result, this program is financially vibrant that the City is in a position to temporarily forgo the receipt of additional participant asset fees. The holiday is temporary, and you will be notified when administration fees will again be charged.
