Cook County Blended Fixed Option

2nd Quarter 2022 Annualized Yield 2.53%

DIAL-DC Fund Code: 220

The Cook County Blended Fixed Option is comprised of investment contracts offered by Nationwide Life Insurance Company and Massachusetts Mutual Life Insurance Company⁽⁸⁾. A net interest yield is declared quarterly and credited daily.

Guarantees and protections are based on the claims paying ability of the underwriting insurance company.

- ⁽¹⁾ T. Rowe Price Retirement Funds - The performance and risks of each Retirement Fund will directly correspond to the performance and risks of the underlying funds in which it invests. By investing in many underlying funds, the Retirement Funds have partial exposure to the risks of many different areas of the market. The more a Retirement Fund allocates to stock funds, the greater the expected risk. Underlying fund expenses are proportional to the expenses of the acquired funds in which they invest. It's important to remember that no strategy can assure a profit or prevent a loss in a declining market. The principal value of the fund(s) is not guaranteed at any time, including the target date.

- ⁽²⁾ The Vanguard LifeStrategy Funds are a group of mutual funds that invest in fixed percentages of assets in up to four other Vanguard stock and bond mutual funds. These funds offer distinct choices for different investment styles and life stages. The use of asset allocation does not guarantee returns or insulate you from potential losses.

- ⁽³⁾ International investing involves additional risks including: political instability, currency fluctuations, differences in accounting standards, and foreign regulations.

- ⁽⁴⁾ Small and Mid-Cap company funds involve increased risk and volatility.

- ⁽⁵⁾ This return corresponds to the retail version of the same Fidelity Contrafund.

- ⁽⁶⁾ This return corresponds to the Institutional version of the same American Century Focused Large Cap Value Fund.

- ⁽⁷⁾ Bond funds have the same interest rate, inflation and credit risks that are associated with the underlying bonds owned by the fund.

- ⁽⁸⁾ Effective on December 31, 2020, Empower Retirement (Empower) acquired the retirement business of MassMutual. Through this transaction, business written by MassMutual, including the GIA, is reinsured by Great-West Life & Annuity Insurance Company (GWLA) and in New York by Great-West Life & Annuity Insurance Company of New York.

Gross Expense Ratio

Expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. Gross expense ratios do not reflect any fund management expense waivers or reimbursements (which, if reflected, would give you a net expense ratio). The fund performance shown has the "net expense ratio" deducted. If gross ratios were used in calculating performance, the performance would be lower. For more information about management expense waivers or reimbursements, read the fund's prospectus.

Mutual fund category is determined by Nationwide Financial. Sources for NAVs: Bloomberg or the fund house.
