

Dallas County Deferred Compensation Plan

Dallas County, TX

Investment Performance Report

Investment returns as of March 31, 2019

Your employer's deferred compensation plan has established an unregistered group annuity as the way participants can invest their tax-deferred contributions each payday. The annuity offers a broad portfolio of investment options. As a participant, you decide how to spread your deferrals and invested assets among these options.

It's natural to want to know how your investments are doing over time. This performance report shows how the options in the plan have performed over a series of time periods.

Mutual Fund Payments

Nationwide Retirement Solutions, Inc. and its affiliates (Nationwide) offer a variety of investment options to public sector retirement plans through variable annuity contracts, trust or custodial accounts. Nationwide may receive payments from mutual funds or their affiliates in connection with those investment options. For more detail about the payments Nationwide receives, please visit dallascountydc.com.

Fees and Expenses

INVESTMENT OPTION ("FUND") FEES: Certain underlying funds in this plan are available only as investment options in group variable annuity contracts issued by life insurance companies. Although referred to as "underlying funds" in this document, they are not offered directly to the general public. They are different investments than similarly named mutual funds offered by the money manager and investment returns may be higher or lower.

Fees indicated for these options are Variable Account Expense Fees and are in addition to the fees disclosed in the underlying fund prospectus. Performance numbers represent the total percentage change in the unit value for the period indicated, after the following Variable Account Expense Fees have been taken:

* denotes a fee of 0.00%

GROSS EXPENSE RATIO: Gross expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. Your expenses may be less than the gross expense ratio. For more information about gross expense ratios, read the fund's prospectus.

SHORT-TERM TRADE FEES: Some funds may impose a short-term trade fee. Some funds may be subject to a trade-restriction policy. This information is explained in the underlying prospectus.

ACCOUNT MAINTENANCE: A participant account maintenance charge, up to a maximum of \$50, will not be assessed unless agreed to by your employer.

Nationwide Retirement Solutions and Nationwide Life Insurance Company (collectively "Nationwide") have endorsement relationships with the National Association of Counties and the International Association of Fire Fighters-Financial Corporation. More information about the endorsement relationships may be found online at dallascountydc.com.

Nationwide Fixed Account

For the quarter ending June 30, 2019, the annualized yield for the Nationwide Fixed Account is 3.50%.

Interest rates are declared quarterly and are subject to change.

Guarantees are subject to the claims-paying ability of the company.

Don't count on numbers alone

If you see something you'd like to know more about, ask your Nationwide representative.

What to look for in this table

The figures shown are calculated based on a one-time investment of \$10,000 and reflect the deduction of all applicable charges. These returns are measured from the inception date of the fund which may predate the availability of the fund in the Nationwide separate account. Where this occurs, the performance is hypothetical and depicts how the fund would have performed had it been available during the time period.

To obtain performance information current to the most recent month end, visit www.dallascountydc.com.

The Nationwide Large Cap Growth Portfolio is not a mutual fund. Its performance cannot be tracked in newspapers or through other public resources. You can track the portfolio's performance via your plan's website, www.dallascountydc.com. The portfolio's offering memorandum may be obtained by visiting www.dallascountydc.com or by calling toll-free 877-677-3678.

Investing involves market risk, including the possible loss of principal. Included with each asset class is information that reviews specific risks for that type of investment.

The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Performance data current to the most recent month-end may be obtained by visiting: www.dallascountydc.com.

Please consider the fund's investment objectives, risks, and charges and expenses carefully before investing. Both the underlying fund prospectuses and informational brochure contain this and other important information, and are available by calling 877-677-3678. Read carefully before investing.

Asset Class: Asset Allocation

These funds are designed to provide diversification and asset allocation across several types of investments and asset classes. Because they primarily invest in underlying funds, their expense ratio includes a proportionate share of the applicable fees and expenses of the underlying funds. Target Date Funds are designed for people who plan to withdraw funds during or near a specific year. Like other funds, target date funds are subject to market risk and loss. Loss of principal can occur at any time, including before, at or after the target date. There is no guarantee that target date funds will provide enough income for retirement.

Asset Class: Specialty

Funds that invest in a concentrated sector or focus on a relatively small number of securities may be subject to greater volatility than a more diversified investment.

Funds that focus on real estate investing are sensitive to economic and business cycles, changing demographic patterns and government actions.

Asset Class: Short-term Investments

Money market funds are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other federal government agency. Although they seek to preserve the value of your investment at \$1.00 per share, it's possible to lose money by investing in money market funds.

Because the value of the securities held by stable value funds will fluctuate, there is the risk that an investor will lose money investing in stable value funds.
