

Sacramento Metropolitan Fire District Deferred Compensation Plan

Sacramento Metropolitan Fire District

Investment Performance Report

Investment returns as of December 31, 2018

Your employer's deferred compensation plan offers a broad portfolio of investment options. As a participant, you decide how to spread your deferrals and invested assets among these options.

Mutual Fund Payments

Nationwide Retirement Solutions, Inc. and its affiliates (Nationwide) offer a variety of investment options to public sector retirement plans through variable annuity contracts, trust or custodial accounts. Nationwide may receive payments from mutual funds or their affiliates in connection with those investment options. For more detail about the payments Nationwide receives, please visit sacmetrofire457.com.

It's natural to want to know how your investments are doing over time. This performance report shows how the options in the Plan have performed over a series of time periods.

Fees and Expenses:

ADMINISTRATOR'S FEE: If applicable, an annualized **\$0** administrator's fee may be charged and would reduce the performance shown.

GROSS EXPENSE RATIO: Gross expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. Your expenses may be less than the gross expense ratio. For more information about gross expense ratios, read the fund's prospectus.

SHORT-TERM TRADE FEES: Some funds may impose a short-term trade fee. Some funds may be subject to a trade-restriction policy. This information is explained in the underlying prospectus.

INVESTMENT OPTION ("FUND") FEES: The returns are reported after the fees that the fund manager charges have been applied, but do not reflect plan administration fees.

PLAN ASSET FEE: The rates of return shown in this performance report do not reflect a maximum deduction of a **0.00%** annual plan asset fee, which, if reflected, would reduce the performance shown.

Nationwide Retirement Solutions and Nationwide Life Insurance Company (collectively "Nationwide") have endorsement relationships with the National Association of Counties and the International Association of Fire Fighters-Financial Corporation. More information about the endorsement relationships may be found online at sacmetrofire457.com.

Nationwide Guaranteed Separate Account

For the quarter ending March 31, 2019, the annualized yield for the Nationwide Guaranteed Separate Account is 2.70%.

Interest rates are declared quarterly and are subject to change.

Guarantees are subject to the claims-paying ability of the company.

Don't count on numbers alone

If you see something you'd like to know more about, ask your Nationwide representative.

Sacramento Metropolitan Fire District Deferred Compensation Plan

Investment returns as of December 31, 2018

What to look for in this table

The following are the percentage changes in Net Assets (with capital gains and income dividends reinvested) for the funds under the Plan, for the respective periods ending December 31, 2018. Investing involves market risk, including the possible loss of principal. Included with each asset class is information that reviews specific risks for that type of investment.

The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Performance data current to the most recent month-end may be obtained by visiting: www.sacmetrofire457.com.

Please consider the fund's investment objectives, risks, and charges and expenses carefully before investing. Both the underlying fund prospectuses and informational brochure contain this and other important information, and are available by calling 877-677-3678. Read carefully before investing.

Asset Class: Asset Allocation

These funds are designed to provide diversification and asset allocation across several types of investments and asset classes. Because they primarily invest in underlying funds, their expense ratio includes a proportionate share of the applicable fees and expenses of the underlying funds. There is no guarantee that target date funds will provide enough income for retirement.
