Investment Performance Report

Investment returns annualized as of March 31, 2019

Your employer's deferred compensation plan offers a broad portfolio of investment options. As a participant, you decide how to distribute your deferrals and invested assets among these options.

It's natural to want to know how your investments are doing over time. This performance report shows how the options in the Plan have performed over a series of time periods.

Fees and Expenses:

ADMINISTRATOR'S FEE: If applicable, an annualized (approx \$30) administrator's fee may be charged in addition to a 0.135% annual plan asset fee, which, if reflected, would reduce the performance shown.

GROSS EXPENSE RATIO: Gross expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. Your expenses may be less than the gross expense ratio. For more information about gross expense ratios, read the fund's prospectus.

PROVIDER FEES or REIMBURSEMENTS: Are used to offset administrative expenses.

SHORT-TERM TRADE FEES: Some funds may impose a short-term trade fee. Some funds may be subject to a trade-restriction policy. This information is explained in the underlying prospectus.

INVESTMENT OPTION ("FUND") FEES: The returns are reported after the fees that the fund manager charges have been applied, but do not reflect plan administration fees.

Don't count on numbers alone
