as of 6/30/2024

CALIFORNIA STATE EMPLOYEE 401(k) & 457(b) PLANS

Objective

The Fund seeks to provide safety and stability through money market funds. The Fund includes Government Money Market funds that invest primarily in U.S. Government related securities and Prime Money Market funds which invest primarily in a portfolio of high-quality, dollar denominated fixed-income securities issued by banks, corporations and the U.S. Government.

Strategy

The Fund is a blend of Government and Prime Money Market funds. The Government Money Market mutual fund managers consist of RBC Global Asset Management (U.S.) Inc and Goldman Sachs Asset Management, L.P. The Prime Money Market mutual fund managers consist of J.P. Morgan Investment Management Inc. and Federated Investment Counseling. The Government Money Market funds invest in U.S. Government related securities which are managed to a consistent \$1.00 net asset value (NAV), while seeking to provide short-term market rates for yield intended to exceed the 90 Day T-Bill. The Prime Money Market funds seek current income while seeking to maintain liquidity and low volatility of principal by primarily investing in a portfolio of high-quality, dollar denominated fixed-income securities that are issued by banks, corporations, and the U.S. government. The assets are divided between the providers in a manner intended to balance yield and safety.

The performance of the Fund is measured against the performance of the 90-day T-Bill Index (see Additional Disclosures for definition).

The index returns do not include the deduction of investment management and trustee services fees which would lower a participant's return.
