

Investing that fits your risk tolerance and retirement goals

Nationwide ProAccount® builds and manages a portfolio designed for your goals, timeline and comfort with risk. Here's how it works:

Your information sets the starting point

We start with the details you share in your Risk Tolerance Questionnaire, including:

- ✓ When you want to retire
- ✓ How much you've saved and are contributing
- ✓ How comfortable you are with market ups and downs

Risk tolerance helps set an investment mix

Your information is used to place you along a risk tolerance spectrum and help select a portfolio that aligns with your tolerance while still aiming to keep you on track for your retirement.

- ✓ If you prefer less risk, more of your money leans toward more conservative investments
- ✓ If you can accept more ups and downs, more of your money leans toward growth-oriented investments

Your portfolio might look different than you expected

- ✓ It stays age-appropriate, based on how near you are to retirement
- ✓ If you're getting close to retirement and your savings are behind, your portfolio may look more aggressive.
- ✓ It can lean more toward growth investments to help you try to close the gap

Your overall risk level is guided by your information in the Risk Tolerance Questionnaire. Your mix is designed to support your specific path to retirement.

Nationwide ProAccount professionals monitor and adjust your account for you

Behind the scenes, real investment professionals are working to balance growth potential with your comfort with risk by:

- ✓ Monitoring markets and your portfolio over time
- ✓ Adjusting your investments as conditions change and as your information is updated*
- ✓ Aiming to keep your portfolio aligned with your goals and risk tolerance

You get a professionally managed strategy that works to balance growth potential with your comfort with risk.

Confirm your details in the Risk Tolerance Questionnaire to keep your plan aligned with your comfort level.

*ProAccount uses the data provided in the risk tolerance questionnaire to make adjustments to your account. Changes to the risk tolerance questionnaire can change your allocation..

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.

No investment strategy or program, including participation in Nationwide ProAccount, can guarantee to make a profit or avoid loss.

Nationwide Investment Advisors, LLC (NIA) provides investment advice to plan participants enrolled in Nationwide ProAccount. NIA is an SEC-registered investment adviser and a Nationwide affiliate.

NIA has retained Wilshire® as an Independent Financial Expert for Nationwide ProAccount. Wilshire provides investment allocation portfolios based on participant ages and their personal tolerance for investment risk.

NIA assesses participants an asset-based fee for the managed account services.

Retirement products are offered by Nationwide Trust Company, FSB or Nationwide Life Insurance Company.

Wilshire is a registered service mark of Wilshire Associates, which is not an affiliate of Nationwide or NIA.

Nationwide, the Nationwide N and Eagle and Nationwide ProAccount are service marks of Nationwide Mutual Insurance Company.
