# NVIT S&P 500 Index Fund — Class Y

## Investment Strategy from investment's prospectus

The investment seeks long-term capital appreciation. The fund's manager employs a "passive" management, or indexing, approach, which seeks to match approximately the performance of the Standard & Poor's 500 Index ("S&P 500 Index") before the deduction of fund expenses. The S&P 500 Index includes approximately 500 stocks of large U.S. companies in a wide range of businesses. Under normal circumstances, the fund invests at least 80% of its net assets in equity securities of companies included in the S&P 500 Index. It does not necessarily invest in all of the securities included in the S&P 500 Index or in the same weightings.

Past name: NVIT S&P 500 Index ID.

## Category Description: Large Blend

Large-blend funds have portfolios that are fairly representative of the overall U.S. stock market in size, growth rates, and price. They tend to invest across the spectrum of U.S. industries, and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index.
