

Release Date: 03-31-2023

Rydex VT Utilities Fund

Investment Strategy from investment's prospectus

The investment seeks to provide capital appreciation. Under normal circumstances, the fund invests substantially all (at least 80%) of its net assets in equity securities of Utilities Companies that are traded in the United States and in derivatives, which primarily consist of futures contracts and options on securities, futures contracts, and stock indices. It may invest to a significant extent in the securities of Utilities Companies that have small to mid-sized capitalizations.

Past name: Rydex Var Utilities Strategy.

Category Description: Utilities

Specialty-utilities funds invest in some combination of U.S. or non-U.S. power, telecommunications and water companies.

Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
