

Release Date: 12-31-2018

American Funds NVIT Asset Allocation Fund — Class II

Investment Strategy from investment's prospectus

The investment seeks to provide a high total return (including income and capital gains) consistent with preservation of capital over the long term. The fund invests all of its assets in the Class 1 shares of the Asset Allocation Fund (the "Master Asset Allocation Fund"). The Master Asset Allocation Fund seeks to achieve its objective by varying its mix of equity securities, debt securities and money market instruments. Normally the Master Asset Allocation Fund's adviser expects to maintain an investment mix falling within the following ranges: 40%-80% in equity securities, 20%-50% in debt securities and 0%-40% in money market instruments (and cash).

Past name: American Funds GVIT Asset Allocation II.

Category Description: Allocation—50% to 70% Equity

Funds in allocation categories seek to provide both income and capital appreciation by investing in multiple asset classes, including stocks, bonds, and cash. These portfolios are dominated by domestic holdings and have equity exposures between 50% and 70%.

Volatility Analysis

In the past, this investment has shown a relatively small range of fluctuations relative to other investments. Based on this measure, currently more than two thirds of all investments have shown higher levels of risk. Consequently, this investment may appeal to investors looking for a conservative investment strategy.
