

Release Date: 12-31-2018

American Funds NVIT Bond Fund — Class II

Investment Strategy from investment's prospectus

The investment seeks to provide as high a level of current income as is consistent with the preservation of capital. The fund invests all of its assets in the Class 1 shares of the Bond Fund (the "Master Bond Fund"), a series of American Funds Insurance Series, a registered open-end investment company. In pursuing its investment objective, the Master Bond Fund seeks to maximize the level of current income and preserve the capital by investing primarily in bonds. Normally, the Master Bond Fund invests at least 80% of its net assets in bonds and other debt securities. It invests at least 65% of its net assets in investment-grade debt securities.

Past name: American Funds GVIT Bond II.

Category Description: Intermediate-Term Bond

Intermediate-term bond funds have durations that are greater than 3.5 and less than six years. Most of the funds rotate among a variety of sectors in the bond market, based upon which appear to offer better values. Whatever types of bonds they hold, these funds are less sensitive to interest rates, and therefore less volatile, than funds that have longer durations.

Volatility Analysis

In the past, this investment has shown a relatively small range of fluctuations relative to other investments. Based on this measure, currently more than two thirds of all investments have shown higher levels of risk. Consequently, this investment may appeal to investors looking for a conservative investment strategy.
