

Release Date: 03-31-2019

American Funds Insurance Series® Blue Chip Income and Growth Fund — Class 4

Investment Strategy from investment's prospectus

The investment seeks to produce income exceeding the average yield on U.S. stocks generally and to provide an opportunity for growth of principal consistent with sound common stock investing. Normally, the fund invests at least 80% of its assets in dividend-paying common stocks of larger, more established companies domiciled in the United States with market capitalizations greater than \$4.0 billion. Its investment adviser considers these types of investments to be "blue chip" stocks. The fund also ordinarily invests at least 90% of its equity assets in the stock of companies whose debt securities are rated at least investment grade.

Category Description: Large Value

Large-value funds invest primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. These funds often feature investments in energy, financial or manufacturing sectors.

Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
