

Release Date: 09-30-2018

Dreyfus Stock Index Fund, Inc. — Initial Shares

Investment Strategy from investment's prospectus

The investment seeks to match the total return of the Standard & Poor's 500 Composite Stock Price Index (S&P 500 Index). The fund generally is fully invested in stocks included in the S&P 500 Index. It generally invests in all 500 stocks in the S&P 500 Index in proportion to their weighting in the index. The S&P 500 Index is an unmanaged index of 500 common stocks chosen to reflect the industries of the U.S. economy and is often considered a proxy for the stock market in general. It is non-diversified.

Category Description: Large Blend

Large-blend funds have portfolios that are fairly representative of the overall U.S. stock market in size, growth rates, and price. They tend to invest across the spectrum of U.S. industries, and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index.

Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
