Fidelity® VIP Equity-Income Portfolio — Service Class

Investment Strategy from investment's prospectus

The investment seeks reasonable income with consideration of the potential for capital appreciation. The fund normally invests at least 80% of assets in equity securities. It primarily invests in income-producing equity securities, which the advisor tends to lead to investments in large cap "value" stocks. The fund potentially invests in other types of equity securities and debt securities, including lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds).

Category Description: Large Value

Large-value funds invest primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. These funds often feature investments in energy, financial or manufacturing sectors.

Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
