Fidelity® VIP Energy Portfolio — Service Class 2

Investment Strategy from investment's prospectus

The investment seeks capital appreciation. The fund primarily invests in common stocks. It normally invests at least 80% of assets in securities of companies principally engaged in the energy field including the conventional areas of oil, gas, electricity and coal, and newer sources of energy such as nuclear, geothermal, oil shale, and solar power. The fund invests in domestic and foreign issuers. It uses fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments. The fund is non-diversified.

Past name: Fidelity VIP Natural Resources Svc2.

Category Description: Equity Energy

Equity energy portfolios invest primarily in equity securities of U.S. or non-U.S. companies who conduct business primarily in energy-related industries. This includes and is not limited to companies in alternative energy, coal, exploration, oil and gas services, pipelines, natural gas services, and refineries.
