

MFS® VIT II MFS Income Portfolio — Service Class

Investment Strategy from investment's prospectus

The investment seeks total return with an emphasis on high current income, but also considering capital appreciation. MFS normally invests the fund's assets primarily in a broad range of debt instruments issued by U.S. and foreign corporate, government

Past name: MFS VIT II Strategic Income Svc.

Category Description: Intermediate Core-Plus Bond

Intermediate-term core-plus bond portfolios invest primarily in investment-grade U.S. fixed-income issues including government, corporate, and securitized debt, but generally have greater flexibility than core offerings to hold non-core sectors such as corporate high yield, bank loan, emerging-markets debt, and non-U.S. currency exposures. Their durations (a measure of interest-rate sensitivity) typically range between 75% and 125% of the three-year average of the effective duration of the Morningstar Core Bond Index.
