Fidelity® VIP Real Estate Portfolio — Service Class 2

Investment Strategy from investment's prospectus

The investment seeks above-average income and long-term capital growth, consistent with reasonable investment risk. The fund normally invests at least 80% of assets in securities of companies principally engaged in the real estate industry and other real estate related investments. It invests in domestic and foreign issuers. The fund invests primarily in common stocks. It uses fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments. The fund is non-diversified.

Category Description: Real Estate

Real estate funds invest primarily in real estate investment trusts (REITs) of various types. REITs are companies that develop and manage real estate properties. There are several different types of REITs, including apartment, factory-outlet, health-care, hotel, industrial, mortgage, office, and shopping center REITs. Some funds in this category also invest in real estate operating companies.

Volatility Analysis

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.
