

# NVIT Investor Destinations Moderate Fund — Class P

## Investment Strategy from investment's prospectus

The investment seeks a high level of total return consistent with a moderate level of risk as compared to other Investor Destinations Funds. The fund is a "fund of funds" that invests primarily in affiliated mutual funds representing a variety of assets.

## Category Description: Moderate Allocation

Funds in allocation categories seek to provide both income and capital appreciation by investing in multiple asset classes, including stocks, bonds, and cash. These portfolios are dominated by domestic holdings and have equity exposures between 50% and 70%.

## Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
