Goldman Sachs VIT Small Cap Equity Insights Fund — Service Shares

Investment Strategy from investment's prospectus

The investment seeks long-term growth of capital. The fund invests, under normal circumstances, at least 80% of its net assets plus any borrowings for investment purposes (measured at time of purchase) ("Net Assets") in a broadly diversified portfolio of equity investments in small-cap U.S. issuers, including foreign issuers that are traded in the United States. It may also invest in fixed income securities that are considered to be cash equivalents.

Past name: Goldman Sachs VIT Struct Sm Cp Eq Svc.

Category Description: Small Blend

Small-blend portfolios favor U.S. firms at the smaller end of the market capitalization range and are flexible in the types of small caps they buy. Some aim to own an array of value and growth stocks while others employ a discipline that leads to holdings with valuations and growth rates close to the small-cap averages.

Volatility Analysis

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.
