# MFS® VIT II MFS International Growth Portfolio — Initial Class

## Investment Strategy from investment's prospectus

The investment seeks capital appreciation. MFS (Massachusetts Financial Services Company, the fund's investment adviser) normally invests the fund's assets primarily in foreign equity securities, including emerging market equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing the fund's assets in the stocks of companies the advisor believes to have above average earnings growth potential compared to other companies (growth companies).

Past name: MFS Var Ins Tr II Intl Growth.

## Category Description: Foreign Large Growth

Foreign large-growth funds focus on high-priced growth stocks, mainly outside of the United States. Most of these funds divide their assets among a dozen or more developed markets, including Japan, Britain, France, and Germany. They tend to invest the rest in emerging markets such as Hong Kong, Brazil, Mexico and Thailand. These funds typically will have less than 20% of assets invested in U.S. stocks.

| Total Fund Assets (\$mil)                     | 143.70   |

## Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
