

Release Date: 03-31-2019

MFS® VIT Utilities Series — Service Class

Investment Strategy from investment's prospectus

The investment seeks total return. MFS normally invests at least 80% of the fund's net assets in securities of issuers in the utilities industry.

Issuers in the utilities industry include issuers engaged in the manufacture, production, generation, transmission, sale or distribution of electric, gas or other types of energy, water or other sanitary services; and issuers engaged in telecommunications. MFS primarily invests the fund's assets in equity securities, but may also invest in debt instruments, including below investment grade quality debt instruments.

Past name: MFS VIT Utilities Svc.

Category Description: Utilities

Specialty-utilities funds invest in some combination of U.S. or non-U.S. power, telecommunications and water companies.

Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
