# NVIT Managed American Funds Growth-Income Fund — Class II

## Investment Strategy from investment's prospectus

The investment seeks to achieve long-term growth of capital and income. The fund consists of two main components. First, a majority of its portfolio, referred to herein as the "Core Sleeve," operates as a "fund-of-funds" that invests in the Growth-Income FundSM, a series of American Funds Insurance Series (the "underlying fund"). The underlying fund is designed for investors seeking both capital appreciation and income. The remainder of the fund, referred to herein as the "Volatility Overlay," invests in short-term fixed-income securities (or mutual funds that themselves invest in such securities) or is held in cash.

## Category Description: Large Blend

Large-blend funds have portfolios that are fairly representative of the overall U.S. stock market in size, growth rates, and price. They tend to invest across the spectrum of U.S. industries, and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index.
