# Oppenheimer Main Street Small Cap Fund®/VA — Non-Service Shares

## Investment Strategy from investment's prospectus

The investment seeks capital appreciation. The fund will invest at least 80% of its net assets, including any borrowings for investment purposes, in securities of "small-cap" companies. The fund's manager considers small-cap companies to be those having a market capitalization in the range of the Russell 2000 Index. Although the fund mainly invests in U.S. companies, it can invest in securities issued by companies or governments in any country. The fund primarily invests in common stock but may also invest in other types of securities that are consistent with its investment objective.

Past name: Oppenheimer Main St Sm & Mid Cap VA.

## Category Description: Small Blend

Small-blend portfolios favor U.S. firms at the smaller end of the market-capitalization range and are flexible in the types of small caps they buy. Some aim to own an array of value and growth stocks while others employ a discipline that leads to holdings with valuations and growth rates close to the small-cap averages.

## Volatility Analysis

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.
