PIMCO VIT Foreign Bond Portfolio (Unhedged) — Administrative Class

Investment Strategy from investment's prospectus

The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund seeks to achieve its investment objective by investing at least 80% of its assets in Fixed Income Instruments that are economically tied to at least three non-U.S. countries, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. "Fixed Income Instruments" include bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. The fund is non-diversified.

Past name: PIMCO VIT Foreign Bond (Unhedged) Adm.

Category Description: World Bond

World-bond portfolios typically invest 40% or more of their assets in foreign bonds. These portfolios invest primarily in investment-grade rated issues, but their strategies can vary. Some follow a conservative approach, sticking with high-quality bonds from developed markets and/or hedging foreign currency exposure back to the U.S. dollar. Others are more adventurous, owning some lower-quality bonds from developed or emerging markets and/or taking meaningful foreign currency risk. Some portfolios invest exclusively outside the U.S., while others regularly invest in both U.S. and non-U.S. bonds.

Volatility Analysis

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio makeups or investment strategies.
