

Rydex VT S&P 500 Pure Growth Fund

Investment Strategy from investment's prospectus

The investment seeks to provide investment results that match, before fees and expenses, the performance of a benchmark for large-cap growth securities on a daily basis. The fund's current benchmark is the S&P 500 Pure Growth Index (the "underlying index"). It will invest at least 80% of its net assets, plus any borrowings for investment purposes, in securities of companies in the underlying index and derivatives and other instruments whose performance is expected to correspond to that of the underlying index. The fund is non-diversified.

Past name: Rydex|SGI Var S&P 500 Pure Gr.

Category Description: Large Growth

Large-growth funds invest primarily in big companies that are projected to grow faster than other large-cap stocks. Most of these funds focus on companies in rapidly expanding industries.

Volatility Analysis

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.
