

Rydex VT Energy Fund

Investment Strategy from investment's prospectus

The investment seeks capital appreciation. Under normal circumstances, the fund invests substantially all (at least 80%) of its net assets in equity securities of Energy Companies that are traded in the United States and in derivatives, which primarily consist of futures contracts and options on securities, futures contracts, and stock indices. It may invest to a significant extent in the securities of Energy Companies that have small to mid-sized capitalizations.

Past name: Rydex|SGL Var Energy.

Category Description: Equity Energy

Equity energy portfolios invest primarily in equity securities of U.S. or non-U.S. companies who conduct business primarily in energy-related industries. This includes and is not limited to companies in alternative energy, coal, exploration, oil and gas services, pipelines, natural gas services, and refineries.
