Understanding Risks

The following items outline some of the risks with the investment choices. For specific risks related to each investment, see the prospectus.

- 1 **Bond funds:** These funds have the same interest rate, inflation and credit risks associated with the underlying bonds owned by the fund.
- 2 **High-yield funds:** Funds that invest in high-yield securities are subject to greater credit risk and price fluctuations than funds that invest in higher-quality securities.
- 3 **Small-cap/Mid-cap/Emerging market funds:** Funds investing in stocks of smallcap, mid-cap or emerging companies may have less liquidity than those investing in larger, established companies and may be subject to greater price volatility and risk than the overall stock market.
- 4 **Non-diversified funds:** Funds that invest in a concentrated sector or focus on a relatively small number of securities may be subject to greater volatility than a more diversified investment.
- 5 **Funds-of-funds:** Designed to provide diversification and asset allocation across several types of investments and asset classes, primarily by investing in underlying funds. Therefore, in addition to the expenses of the portfolio, you are indirectly paying a proportionate share of the applicable fees and expenses of the underlying funds.
- 6 **Money market taxable funds:** These funds are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other federal government agency. Although they seek to preserve the value of your investment at \$1.00 per share, it's possible to lose money by investing in money market funds. While the funds invest primarily in the securities of the U.S. government and its agencies, the values are not guaranteed by these entities.
- 7 **International funds:** Funds that invest internationally involve risks not associated with investing solely in the United States, such as currency fluctuation, political risk, differences in accounting and limited availability of information.
- 8 **Government funds:** While the funds invest primarily in the securities of the U.S. government and its agencies, the values are not guaranteed by these entities.
- 9 **Real estate funds:** Funds that focus on real estate investing are sensitive to economic and business cycles, changing demographic patterns and government actions.
- 10 Actual Inception Date is 9/30/1993. The earliest information available from the fund house reflects 12/31/1999. Inception calculation based on 12/31/1999 values.

Please review the important disclosure information before investing. This performance report is authorized for existing client use only or for new or prospective clients only when preceded or accompanied by a prospectus, which describes the investment objectives, risks, charges, and expenses that may apply. The prospectus contains this and other important information about the investment company. To request a copy, contact your investment professional or write to Nationwide Life Insurance Company, P.O. Box 182150, Columbus, OH 43218-2150. Please read the product and underlying fund prospectuses carefully before investing. Please contact your investment professional if you have additional questions relating to policy provisions or investment options.

The underlying investment options (hereafter often abbreviated as 'UIO') discussed in this brochure are only available as investment options in variable annuity contracts and variable life insurance policies issued by life insurance companies. They are not offered or made available directly to the general public. These portfolios contain different investments than similarly named mutual funds offered by the money manager. Investment results may result in higher or lower returns. The most recent version of this fund performance report can be obtained by calling 1-877-351-8808.

Next Generation Corporate Variable Universal Life® is Underwritten By Nationwide Life Insurance Company, Columbus, Ohio. The general distributor is Nationwide Investment Services Corporation, Member FINRA.

Next Generation Corporate Variable Universal Life® is a trademark of Nationwide Mutual Insurance Company.

The results shown represent past performance and should not be considered a representation of performance of investor experience of the funds in the future. Past performance cannot guarantee future results. Current performance may be lower or higher than the performance data quoted. The principal value and investment return of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

The primary purpose of any life insurance is to provide a death benefit. When evaluating the purchase of a variable life insurance product, you should be aware that variable products are long-term investment vehicles designed for retirement purposes and investing involves market risk, including possible loss of principal. Variable life products allow the contract holder to choose an appropriate amount of life insurance protection that has an additional cost associated with it. If sufficient premiums are not paid, there is the possibility that the policy may lapse. Care should be taken to ensure that variable life insurance products are suitable for you and your long-term life insurance need.

N/A: Certain underlying investment options (UIO) are less than 1, 3, 5 or 10 years old. Therefore such figures are not available for the underlying investment options.

UIO performance results, "net of Investment Management Fees ONLY", do not reflect other life insurance policy charges such as (but not limited to): mortality & expense risk (M&E), deductions from premiums, administrative, cost of insurance (COI), surrender or lapse charges. If these results reflected cost of insurance charges (COI), the returns would be significantly lower than what is reflected here.

"Fund Inception Date" is the date the underlying fund was established. Performance for UIOs includes hypothetical performance for periods before the UIO was available in the product, where applicable, applying contract charges to actual fund NAVs to determine the performance the UIO would have achieved inside the separate account.

** Numbers in these columns represent the total percentage change in the unit value for the period indicated. This is not an annual return figure.

Past performance does not guarantee future results.														
UIO performance results, "net of Investment Management Fees ONLY", do not reflect other life insurance policy charges such as (but not limited to): mortality & expense risk (M&E), deductions from premiums, administrative, cost of insurance (COI), surrender or lapse charges. If these results reflected cost of insurance charge (COI), the returns would be significantly lower than what is reflected here.

PIMCO VIT Total Return Portfolio - Administrative Class	8.64%	-1.26%	-14.30%	5.94%	3.13%	-2.58%	0.48%	1.58%	4.34%	
Past performance does not guarantee future results.										
UIO performance results, "net of Investment Management Fees ONLY", do not reflect other life insurance policy charges such as (but not limited to): mortality & expense risk (M&E), deductions from premiums, administrative, cost of insurance (COI), surrender or lapse charges. If these results reflected cost of insurance charge (COI), the returns would be significantly lower than what is reflected here.
